

AGL Is Extending A Special Offer To All AGTA-GTC Customers

In light of recent events surrounding the closure of the AGTA-GTC, we here at the American Gemological Laboratories (AGL) would like to reach out to their clients who have come to depend on quality identification and enhancement reports to support their colored stones sales and purchases.

Submit your colored stones to AGL for Prestige Reports with a valid AGTA-GTC report and receive a significant reduction in our standard price*.

Supplement Your AGTA-GTC Reports With AGL Reports And Receive A 40% Discount**

As a special consideration to the loyal clients of the AGTA-GTC facility, AGL wishes to extend this special offer. American Gemological Laboratories has been a staple in the American gemstone and jewelry marketplace for more than 30 years. With its recent re-privatization, AGL is well structured and committed to being a leader in colored gemstone reporting for decades to come.

AGL Prestige Report™	Standard Tariff	Special Tariff
ID and Enhancement: Any size, any material	120 USD	72 USD
ID, Enhancement and Origin: 0.17 – 2.99 ct	180 USD	108 USD
3.00 – 9.99 ct	300 USD	180 USD
10 ct and up	420 USD	252 USD

We would like to invite AGTA-GTC clients who have not dealt with us before, or recently, to become acquainted with the high-quality service and reporting that existing AGL clients have come to expect.

Sincerely,
Christopher P. Smith, President
